Pet's Name \_\_\_\_\_ Breed \_\_\_\_\_ Procedure \_\_\_\_\_

## HOSPITALIZATION/SURGERY/ANESTHESIA AUTHORIZATION

\*\*\*\*\*PLEASE READ THOROUGHLY BEFORE SIGNING\*\*\*\*\*

I am the owner (or agent of the owner) of the animal described above. I hereby authorize Dunes Animal Hospital to perform such diagnostic, anesthetic, and surgical procedures as are necessary and advisable for the treatment and maintenance of my pet's health and well being. While I expect all procedures to be done to the best of the abilities of the professional staff; I realize that no guarantee or warranty can ethically or professionally be made regarding the results or cure. In the event that my animal should, for some unforeseen reason, injure itself, escape, fail to eat, become ill, or die, I will not hold Dunes Animal Hospital, or its employees responsible. I also authorize the hospital director and staff to provide veterinary services as requested or in emergency circumstances to follow through with such procedures as are necessary for the well being of my pet on a continuing basis until further advised. I understand that I assume financial responsibility for all services rendered and that payment is due in full at the time of discharge.

## PREANESTHETIC BLOODWORK & IV CATHETER

These procedures increase the safety of any anesthetic procedure. The preanesthetic bloodwork lets us evaluate your pet's basic physiologic condition. Knowing how certain organs such as liver and kidney's are functioning is important prior to anesthesia. These organs are responsible for eliminating anesthetic from the body. The CBC is useful in identifying white and red blood cell abnormalities that reveal anemia, infections, etc. An IV catheter placed prior to surgery will allow for an easy route to give medication if an anesthetic complication should occur.

- Pre-anesthetic Blood Work Cost \$55.00  
( ) Yes, I want my pet to receive pre-anesthetic blood work  
( ) No, I do not want my pet to receive pre-anesthetic bloodwork

- IV Catheter Cost \$16.25  
( ) Yes, I do want my pet to receive an IV Catheter  
( ) No, I do not want my pet to receive an IV Catheter

Please note **ADDITIONAL SERVICES** you would like performed while your pet is under anesthesia. If procedure(s) exceed 30 minutes combines, **additional** anesthesia charges of \$35.00 applies.
